

International Public Speaking Competition Poland - Bydgoszcz 2019

The International Public Speaking Competition held in Bydgoszcz on both regional and national level gained a new participant (region of Piła) and, also thanks to the support of the City Council, became a two-day-event for participants of the national finals.

The competition was preceded by a visit at the regional museum, workshops on body language and foreign cultures and games played in English. For both participants and organizers the events accompanying the main competition were a great asset and an opportunity to strengthen the links.

March 2nd, 2019 – regional finals

March 9th - National Public Speaking Competition

May 12-18, London, International Public Speaking Competition

At the International Public Speaking Competition in London, Martyna Nitek was accompanied by Małgorzata Modlińska, a member of the English Speaking Union Poland. Both Martyna Nitek and Małgorzata Modlińska describe the event as a unique experience.

The competition is a great way to meet open and ambitious people from around the world and broaden your horizons. It is also a great opportunity to travel to those who would normally not be able to afford such a trip. However, all conversations, workshops, valuable speeches and joint fun are remembered more than Buckingham Palace. Martyna Nitek

Martyna was one of the younger participants of the competition, which in the case of the Polish representative is a rule, since our participants are high school students, not university students. However, her level of English and holding an argument are in no way different from those of other participants. I enjoyed watching her performances. Martyna emphasizes the social aspect, and I, as the organizer's representative, appreciate above all the fact that Poland, and in this case also Bydgoszcz, looks good on the international stage. Małgorzata Modlińska
